DUTCH BULBS at their BEST

Harvested, graded, stored and marketed under the personal supervision of members of the Van Bourgondien family.

Ours is one of the largest concerns in Holland growing Dutch bulbs and marketing them direct to American flower lovers. From the time the bulbs are planted until they are shipped to you postpaid, we control the factors which govern quality. Every step is supervised by a member of our firm.

It is our purpose to render a personalized service to American home owners and flower lovers. In fact, the growing of the fine bulbs is a family tradition, backed by generations of experience.

Infinite care and close personal attention to details are required to produce the super-quality Top-Size Bulbs listed in this catalog. No other concern is so well equipped to deliver Dutch Bulbs of such absolutely dependable quality.

The bulbs quoted in this catalog are all Top-Size. This is the largest size the market affords, often called "Exhibition Size." With such bulbs you can actually duplicate in your own garden the huge blooms seen at Flower Shows.

Our Dutch Bulbs are grown in fertile fields at Hillegom, Holland, under personal supervision of a member of our firm. Every step in harvesting, grading and shipping is likewise personally supervised.

Remember, bulbs of the quality we offer are seldom offered at any price. Indeed, only 40 per cent of our Dutch crop measures up to the standard set for bulbs to be marketed under the Van Bourgondien label. You get only the cream of the crop, yet our prices are no higher than you would pay for bulbs of uncertain origin and inferior quality.
